Cynthia Waruguru

TECHNICAL SUPPORT & RENEWABLE ENERGY PROFESSIONAL | VR DEVELOPMENT | CUSTOMER EXPERIENCE

Nairobi, Kenya | +254 768901030 | warugurucynthia4@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Customer-focused and solution-oriented professional with a Mechatronics Engineering background and hands-on experience in renewable energy systems, technical support, system installation, troubleshooting, and virtual reality development. Skilled at explaining technical concepts in simple terms, supporting customers during system setup, troubleshooting practical issues, and developing technology-driven training solutions. Brings strong analytical thinking, problem-solving ability, communication skills, and an interest in renewable energy and emerging technologies.

SKILLS

- Customer Support & Technical Assistance
- Renewable Energy Systems
- Solar System Installation & Troubleshooting
- Virtual Reality Development
- Technical Training & Demonstration
- System Monitoring & Data Visualization
- Communication

PROFESSIONAL EXPERIENCE

DEKUT SIEMENS CENTRE

Nyeri, Kenya

VR Developer Intern | Jul 2025 – Feb 2026

- Designed a virtual reality concept for solar farm visualization and engineering training.
- Simulated solar farm monitoring and data visualization within immersive environments.
- Developed training-focused VR experiences aimed at improving practical learning for engineering students.
- Focused on renewable energy education and technician training applications.

L-NOTCH AFRICA

Nyeri, Kenya

Solar Tech Attaché | Feb 2025 – Apr 2025

- Assisted clients by explaining solar system installations, components, and system functionality.
- Provided basic technical support and guidance to customers during system setup.
- Helped troubleshoot installation issues and escalated complex technical problems to senior technicians.
- Supported clear communication between customers and technical teams to improve the installation experience.

SUBARU KENYA

Nairobi, Kenya

Industrial Attachment Trainee | Feb 2024- April 2024

- Gained exposure to automotive production processes and day-to-day operations within an industrial environment.

- Observed and learned quality management practices used to maintain production standards.
- Applied engineering knowledge to understand how technical processes, equipment, and quality controls work together in an industrial setting.

EDUCATION

DEDAN KIMATHI UNIVERSITY OF TECHNOLOGY Nyeri, Kenya
Bachelor of Science in Mechatronics Engineering | Oct 2021 – June 2026

KEY ACHIEVEMENTS

Virtual Reality Training: Selected to support the development of a Virtual Reality training program for second-year engineering students.

Renewable Energy Training: Applied technical and visualization skills to develop immersive learning experiences around solar energy systems.

Entrepreneurship: Started and managed a perfume business while studying, gaining practical experience in customer relations, initiative, and entrepreneurship.
